

# Things to Consider

## What is your service type?

Are you holding pre-plated meals?  
Are you bulk holding pans for buffet service? Do you need a custom design to fit special trays or pans?

## What is your room size?

Each banquet room should have a corresponding banquet cart. Allowing 15 sq. ft per person, match cart with room capacity.

## Will the food travel far?

Our equipment goes the distance. A variety of casters and towing systems are available.

## What is your plate cover size?

Plate cover height and width dictates how many plates can stack per shelf.

### CUSTOMER TESTIMONIAL

#### **PARKVIEW FIELD** PRAISES FWE BANQUET EQUIPMENT

We have had a handful of FWE's bulk food cabinets for going on 13 years now. Our minor league baseball stadium has made good use of these versatile, easy to transport units. During the season, FWE's cabinets keep food hot and fresh for our suites and group areas. During the off season, we rely on them for banquet events like weddings, concerts, and corporate gatherings. FWE's quality equipment is built to last, we will continue to turn to them for our bulk holding needs.

# **BUILT FOR TRANSPORT**

## **BASE FRAME = BACK BONE**

Your equipment's base frame is its foundation. We dominate the industry with the toughest base frame on any banquet cart. We build on a solid foundation that prevents sagging and twisting through decades of demanding service.

### **FULLY INSULATED BASE**

Insulation improves recovery times, lowers costs, and reduces noise.

### **TUBULAR WELDED FRAME**

Tubular stainless steel creates an unshakably rigid frame.

### **10 GAUGE CASTER PLATE**

Thick stainless plate with welded studs absorbs shock, preventing damage in travel.

### **STAINLESS UNDERCARRIAGE**

Stainless sheet layer further strengthens and insulates the base.

### **ONE-PIECE ALUMINUM BUMPER**

Softer metal and non-marking vinyl cushion absorb impact to prevent damage.

### **HEAVY-DUTY CASTERS**

Our casters bolt onto a thick, stainless plate to maximize durability. They're high-capacity, corrosion resistant, maintenance-free, and easy rolling.

## PLATE HOLDING

PLATES: 11" | 12<sup>3</sup>/<sub>8</sub>" (XL) | 13<sup>1</sup>/<sub>4</sub>" (XXL)

### Cost Effective, Reliable

"A," "A-2," "A-XL," & "A-2-XL" SERIES

- ▶ Radiant Heat Circulates Air Naturally
- ▶ Cost Effective Design
- ▶ Reinforced "No-Sag" Shelves
- ▶ Removable Shelves for Easy Cleaning
- ▶ Read Temperature without Power Source
- ▶ Built for Daily Transport

((RADIANT HEAT))

Heat Radiates up from the Bottom of the Cabinet

### Gentle Heat

"P" & "P-XL" SERIES

- ▶ Fill Water Pan to Add Passive Humidity
- ▶ Fan Quickly Distributes Heat
- ▶ Reinforced "No-Sag" Shelves
- ▶ Removable Shelves for Easy Cleaning
- ▶ Read Temperature without Power Source
- ▶ Built for Daily Transport

HUMI TEMP

Passive Humidity Keeps Food from Drying Out

### Remote Serving

"E," "E-XL," & "E-XXL" SERIES

- ▶ Use Canned Fuel When away from Power
- ▶ Faster Temperature Recovery
- ▶ Forced Air Circulates Electric Heat Quickly
- ▶ Canned Fuel Is Secure Inside for Safe Transit
- ▶ Doors Lay Flat to Improve Workflow
- ▶ Easiest Mobility with Master Casters
- ▶ Reinforced "No-Sag" Shelves
- ▶ Read Temperature without Power Source
- ▶ Built for Daily Transport

DUAL HEAT

Electric Heat Circulates through Top/Rear Vent Channel

Canned Fuel Heats from Bottom

### Flexible, Fast Recovery

"BT," "BT-XL," & "UHST-GN-BQ" SERIES

BT & BT-XL Hold Plates on Reinforced "No-Sag" Shelves

BT-96120 Holds Items on Adjustable Shelves

UHST-GN-BQ Holds Hotel Pans & Adjustable Shelves on Slides

TOPMOUNT

Heat Circulates to Each Level through Rear Vent Channel

Fastest Temp Recovery for Frequent Access

- ▶ Forced Air Heats Quickly via Rear Vent Channel
